

Make a Sketch Using Desaturate/Color Dodge

1. Duplicate background layer
2. If needed, add filter: artistic>poster edges (settings of 10, 0, 6)
3. Desaturate
4. Duplicate that layer
5. Invert
6. Change Blend Mode to Color Dodge
7. (Layer will appear totally white)
8. Apply either Gaussian Blur or Motion Blur(allows you to change direction of the blur)
9. As you increase the amount of blur, sketch will appear
